Mahdi **Rashidi**

Senior Backend Engineer • Cloud/DevOps Practitioner

Berlin, Germany

+49 176 7509 6464 | m8rashidi@gmail.com | www.mrashidi.me | mrdevx | deerashidi | mrdevx

Summary

Software Engineer with **9+ years** of professional experience, including **6+ years** focused on **TypeScript/Node.js** and cloud-native development. Experienced in designing and implementing scalable **microservices**, **distributed systems**, and **event-driven architectures** across **Azure**, **AWS**, and **GCP** platforms. Skilled in **Kubernetes**, containerization technologies, and DevOps methodologies.

Currently based in **Berlin** with full work authorization and **immediate availability**.

Work Experiences

Fakir Technology Consultants GmbH (inno2fleet E-Mobility Services ↗)

Berlin, Germany (Full-Time, Remote)

Technical Team Lead (Promoted) — *Mar 2022 – Jan 2025*

- Managed lifecycle of 8 core microservices using NestJS/TypeScript, supporting 1,500+ EV stations with 20k+ monthly sessions
- Co-designed GDPR-compliant Azure infrastructure (AKS/Terraform), reducing cloud costs by 45% through resource optimization
- Maintained 99.5% production uptime via Kubernetes monitoring and GitLab CI/CD pipeline enhancements
- Led technical debt resolution and upgraded outdated libraries across services, improving maintainability and reducing security vulnerabilities
- Guided architectural decisions for 3 major product features in the EV charging ecosystem
- Mentored 2 junior engineers on TypeScript best practices, reducing code review iterations by 25%
- Screened new candidates and conducted technical interviews for team expansion

Senior Backend Engineer — *Mar 2021 – Feb 2022*

- Developed core APIs for fleet analytics platform (NestJS/TypeScript) handling 100+ daily enterprise users
- Refactored billing service into modular components, enabling parallel development
- Authored technical docs to streamline onboarding and team workflows
- Reduced message processing failures through RabbitMQ migration from Redis
- Implemented automated testing with Jest, achieving 65% coverage across critical services
- Optimized PostgreSQL queries reducing API latency by 40% for high-traffic endpoints

Mehrpardaz (Flight Operations Platform)

Tehran, Iran (Full-Time, Remote)

Lead Backend Engineer — *May 2020 – Apr 2021*

- Developed backend system for aviation iPadOS app enabling real-time flight operations using Express.js
- Implemented data modeling and persistence layer using MongoDB and Mongoose ODM
- Created modular architecture patterns for authentication, logging, and error handling
- Integrated flight tracking and weather data services including OpenWeatherMap API
- Established engineering best practices including code reviews and CI/CD workflows
- Mentored and onboarded new backend engineers to improve team productivity

Finnotech (Open Banking Platform)

Tehran, Iran (Part-Time, Hybrid)

Backend Developer — *Feb 2020 – May 2020*

- Refactored authentication service for banking systems with enhanced security measures
- Implemented rate limiting and error logging for improved system reliability

Iran Kish Credit Card Co (KICCC)

Tehran, Iran (Full-Time, On-Site)

Backend Developer — *Dec 2018 – Dec 2019*

- Modernized legacy systems by introducing Node.js stack for mobile banking APIs
- Developed Express.js/MongoDB REST APIs with 15% performance improvement over legacy systems

Jahesh (ImenFood Startup)

Tehran, Iran (Full-Time, Hybrid)

Backend Developer — *Sep 2018 – Nov 2018*

- Created restaurant safety evaluation system using Python/Django
- Sole backend developer responsible for API design and implementation

Baharan Sarv Gostar (Learning Management System)

Tehran, Iran (Full-Time, On-Site)

Junior Software Developer — *Oct 2015 – Sep 2018*

- Built C#/.NET modules for student enrollment and grading systems
- Developed Android companion app for course management and student engagement
- Improved system stability by implementing comprehensive error handling

Technical Skills

Backend Development	**Advanced:** NestJS, Node.js, TypeScript, Express.js, RESTful APIs **Familiar:** Deno, Django, Spring Boot
Programming Languages	**Advanced:** TypeScript, JavaScript (ES6+) **Intermediate:** Python, Java, C#, Bash, C++ **Familiar:** Go, Kotlin
Architecture Patterns	Microservices, Event-Driven Architecture, API Gateway Patterns
Cloud & DevOps	**Advanced:** Azure, Kubernetes, Docker, GitLab CI/CD **Intermediate:** AWS, GCP, IaC, Terraform, Helm
Databases	**Advanced:** PostgreSQL, TypeORM, MongoDB, Mongoose, Redis **Intermediate:** MySQL, MSSQL
Messaging	**Advanced:** Redis Pub/Sub, RabbitMQ **Intermediate:** Apache Kafka, Service Bus, Event Grid
Security Standards	JWT, API Security, Zero Trust Architecture, OAuth2/OpenID Connect (OIDC)
Testing & Quality Assurance	Jest, Postman, Unit/Integration Testing, SonarQube
Monitoring & Observability	Sentry, Azure Monitor, Redash, Grafana/Prometheus, K8s Lens
Tools & Platforms	Git, GitLab, VS Code, WebStorm, Docker Hub, Jira, Confluence, Figma, Miro
AI & Machine Learning	**Familiar:** Google AI Studio, Fine-tuning Models (Gemini-1.5-flash, Ollama), AI Chat Bot, AI Agents (N8N)

Certifications

Cloud & DevOps

2025	**AWS Cloud Technical Essentials**, Certificate of Completion	*AWS Training*
2025	**Introduction to Generative AI by Google Cloud**, Certificate of Completion	*Coursera*
2024	**Advanced Terraform**, Certificate of Completion	*LinkedIn*
2024	**Microservices: Security**, Certificate of Completion	*LinkedIn*
2024	**Azure Administration Essential Training**, Certificate of Completion	*LinkedIn*
2020	**The Complete Docker Bootcamp for Web Developers**, Certificate of Completion	*Udemy*

Backend Development

2024	**Building High-Throughput Data Microservices**, Certificate of Completion	*LinkedIn*
2018	**Object-Oriented Programming in JavaScript**, Course Completion	*Code With Mosh*
2018	**The Complete Node.js Course**, Course Completion	*Code With Mosh*
2017	**REST APIs with Flask and Python**, Certificate of Completion	*Udemy*

Database Systems

2018	**The Complete Python & PostgreSQL Developer Course**, Certificate of Completion	*Udemy*
2017	**Learn Database Design with MySQL**, Certificate of Completion	*Udemy*

Programming Languages

2017	**The Complete Python Developer Course**, Certificate of Completion	*Udemy*
2017	**The Complete Java Developer Course**, Certificate of Completion	*Udemy*
2017	**Python and Django Full Stack Web Developer Bootcamp**, Certificate of Completion	*Udemy*

Leadership & Collaboration

2024	**Critical Thinking for Better Judgment and Decision-Making**, Certificate of Completion	*LinkedIn*
2024	**Working with Difficult People**, Certificate of Completion	*LinkedIn*
2024	**How to Have Productive One-on-One Meetings**, Certificate of Completion	*LinkedIn*

Education

Bu-Ali Sina University *Hamedan, Iran*

B.Sc. in Computer Software Engineering *Sep 2011 – Sep 2015*

- Mentored students on object-oriented programming (Java/C#) and SQL optimization techniques.
- Competed in regional ACM-ICPC programming contests, emphasizing algorithmic problem-solving and collaborative coding.

Languages

Persian	Native Speaker
English	C1 – Fluent, Professional Proficiency
German	A2 – Pre-Intermediate, Basic Communication
Turkish	A1 – Beginner, Simple Conversations
